SUMMARY

First-year B.Tech Computer Science student with solid fundamentals in C and Python, focused on building strong problem-solving and core programming skills. Comfortable working with basic data structures, debugging, and writing clean, logical code. Actively developing projects and preparing for technical internships through consistent hands-on practice.

SKILLS

PROGRAMMING LANGUAGES

- C
- Python
- HTML, CSS
- JavaScript

TOOLS & PLATFORMS

- Git & GitHub
- VS Code
- Linux

DATABASES

- MySQL / SQLite

EDUCATION

- SOUTH POINT HIGH SCHOOL
2010-2023
- INDUS VALLEY WORLD SCHOOL
2023-2025
- TECHNO INDIA UNIVERSITY
2025

WORKING EXPERIENCE

- **OPEN SOURCE CONTRIBUTOR**
Indian Society for Technical Education (ISTE – HIT SC) January 2026 - Present
 - Contributing to open-source projects through collaborative development and code reviews
 - Worked with version control (Git/GitHub) to manage issues, commits, and pull requests
 - Improved code quality and documentation while following open-source contribution standards
- **CAMPUS AMBASSADOR (INTERN)**
SmartED Innovations December 2025 - Present
 - Representing SmartED Innovations on campus and promoting technical programs and initiatives
 - Assisted in outreach, student engagement, and event coordination for ed-tech activities
 - Strengthened communication, leadership, and organizational skills through cross-team coordination

RELEVANT PROJECTS

Global Fusion Engine / Aggregator — Space Collision Risk System Role: Lead Backend & Fusion Engineer

- Designed and implemented the central fusion engine aggregating orbital risk summaries from multiple simulated satellite operators.
- Built RESTful APIs to ingest anonymized JSON telemetry summaries and serve fused outputs to a visualization dashboard.

PredictifyME

- Led a cross-functional team as CEO
- App predicting stress levels & mental breakdowns, notifying users for timely intervention
